OUR SERVICES

CRYPTOCURRENCY TRADING

Bitcoin

As the price of Bitcoin varies up and down, the spread's value moves as well, but with limits. Above the ceiling or below the floor, the value of the spread stops moving and remains at its upper or lower limit (depending on whether you are a buyer or seller). In this way, your risk-reward remains within a defined range. One limit is your profit target. The other is your guaranteed protection against unlimited losses.

FOREX TRADING

KINGS ROCKNAMIER

Trade the most popular currency pairs with limited risk and low cost Forex market (short for "foreign exchange") is the largest and the most liquid financial market where the global currencies are traded. Forex traders purchase currencies with the intent to make money off of the difference between the buying and the selling prices..

Real Estate Management

KINGS ROCKNAMIER Limited

An investor must know the market in which he is searching for property or hire an expert to help. For investors seeking an income stream from rental properties, the most important aspects to consider are property location and market rental rates. Real estate has a robust track record of enhancing portfolio diversification and delivering strong risk-adjusted returns for investors.

We are always happy to share the positive reviews of our investors and improve on the areas we have been found wanting.

I've had incredible customer service since i started investing here, I'm a repeat investor. I've been investing with vertexcapitalfund Limiteds Investments for nearly 3 years now and i've loved every bit of the experience so far.
